Project Titles from Previous Capstones

**Clinical Systems Management (CSM)**

- Fetal Monitoring
- Fitness Training In the High Altitude Setting
- Activities of Daily Living (ADL) Care
- Improving Newborn Safety / Security
- Simulation Study for New Graduate RN’s in Transition
- Electronic Medication Admin. Record and Early Phase of Bedside Medication Verification
- SBAR Communication on the Manager Level and Utilization for Off-Shift Supervisors
- Smoking Cessation Program for the Inpatient Unit at the Sylvester Cancer Center
- Simulation Study for New Graduate RN’s In Transition
- NICU Safety Huddles
- Enhancing Patient Care Service through Rapid Redesign
- Implementation of Evidence Based Practice in a Rural Community Hospital
- RN Delegation
- Nursing Role in the New Healthcare Environment
- Implementation of an Emergency Department Electronic Medical Record
- Where is the Welcome Committee? A look at the Preceptor Orientee Relationship and Why Preceptors are Crucial in the Retention Process
- A Transitional Care Model
- Cardiac Enzymes Analysis of a Point -Of- Care Test in the Urgent Care Center
- Implementing Transitional Care Guidelines in a Long Term Home Health Care Program
- SBAR Communication
- Safety Net Program
- Evaluating the Impact of Shared Governance on Nursing Practice in Magnet Hospital
Nursing Education (NED)

Nursing Orientation
Research in Nursing: Teaching a New Dog Old Tricks
Simulation Evaluation Tool (SET)
Diabetes, Asthma, and Seizures at School, and G-tubes / Catheterizations and Senses
Violence in the Healthcare Setting: A Resource Guide for Novice Nurses
Teaching and Facilitating in a Master’s-Prepared Environment
A Nurse Residency Program Development Project
Redesigning the Neonatal Resuscitation Program (NRP) Renewal Course
Skills Day
Development of an Online Conference for Associate Degree Nursing Students
Developing, Implementing, and Evaluation a Pediatric Advance Life Support Course
Education: It’s More than a Slide Show
Collaboration Tool for Nursing Department
Automating Nursing Documentation: Implementing New Hardware
Does Use of the New System Improve Core Measure Compliance for Heart Failure
A change for Implementation Increasing the Likelihood of Implementation Success
mPages: A Nursing Communication Tool
Optimization of the Trauma Narrator

Informatics (INF)

Mental Health Adult and Mental Health Adolescent units Patient Classification System
Implementation of the Nurse Dashboard within the Health EVet Desktop Software
A Two-Part Analysis of the Vendor Selection Process
Inpatient Medications for Outpatients (IMO)
Teaching and Facilitating in a Master’s Prepared Environment
Implementing a Successful Upgrade to an Existing System

Nursing Perceptions in the CIS Vendor Selection Process

Emergency Department Handoffs: Design, Implementation and Evaluation

Patient Classification System

OpTime: Improving Productivity, Schedule Utilization, and Preoperative Documentation within the Surgical Areas

A curriculum for Reality: Mapping an Associate-Degree Program to the NCLE RN Test Plan

Policy & Procedure Process; Bridging the Practice Gap

Motivational Interviewing

“New Student Orientation”

The New Imperative for Clinical Leadership
