# Partner Student Profile

Marc Insinga | Webster, NY | Constellation Energy Group

*Bachelor of Science in Technology, 2012*

“Transferring credits was always a challenge for me. During my time in the service, I earned more than a hundred credits from different schools. But most schools require you to take a full course load with them for at least a year to receive your degree.

When a fellow I work with finished a program at Excelsior, I realized it was the best fit for me, too. Excelsior accepted all of my prior college credits—even my AP credits from High School—and also gave me college credit for my Navy military training and coursework.

Because my courses at Excelsior were online, my work schedule and family time were never disrupted. I would just wake up early to log in and check my assignments before work, and then, when the kids settled in to watch TV in the evening, I would work on my laptop. It was great.”

*Marc is now enrolled in the Excelsior online MBA program.*

## A partnership with Excelsior College can help you:
